

# AVerVision U50+

## Flexible Arm Interactive Visualiser

Create lessons on the go with the USB-powered document camera anywhere, anytime. The U50+ document camera displays vivid motion with x16 digital zoom. Supported by LED lights, built-in autofocus, and more features at a great price.

## Key Features

### Clear quality display

Capture every student's attention with the U50+'s high-quality picture. Easily magnify any detail in your lesson.

### Picture Perfect

Who says geography or maths can't be fun? Take a picture or capture videos in high-definition to jazz up all your learning visuals. You can view and adjust via your interactive touch screen.

### Integration

Integrate live visualiser images seamlessly into existing teaching materials, while maintaining easy access to visualiser functions, like annotation and recording.

### Flexible design

Smart design for smart use and smart storage; bend it at any angle to teach or to stow away in a tight space. The U50+ is light, portable and easy to use.

### Recording Library

Create your own media library full of recorded videos and captured images, then compare the saved images side-by-side with live images from a visualiser, AVer TabCam and/or webcam.

### Built-in LED lights

Every teacher needs a little bit of light when teaching in the dark. The U50+ has a built-in LED light to illuminate any object under the camera.
