Genee Vision 9100 4K Visualiser

With Genee Visualisers you can make a strong impact on your audience, adding visual content to enhance your presentation by showing your content on a larger scale – in fine detail. Utilise the Genee Vision 91004K features to compare work, analyse content and show objects in greater detail. The zoom enlarges source materials, pictures and 3D objects without having to force your audience to move for a better view.

Bring Your Presentations To Life

Have you ever wondered whether you can take your presentation to the next level? Or how you can display your demonstration, experiment or printed document on a larger scale?

Genee Visualisers allow you to make a strong impact on your audience by being able to show visual content in almost microscopic detail!

Utilise the Visualiser's features to compare work, analyse content and record your presentations for reviewing and much more! A key use for Visualisers is to demonstrate student work in lessons for peer led assessment, and to enable discussion through collaboration.

Simple Connectivity - Plug into a power source, connect the USB cable to your computer/screen, launch the software and you're ready to start your presentation

Seemless Intergration - Using SPARK II lesson software, you can demonstrate and interact with students in real-time; which allows teachers to create lessons that are infinitely more engaging.

Powerful Zoom - The powerful zoom enlarges source materials, pictures and 3D objects without having to force your audience to move for a better view.

Helping schools use technology to deliver better education

Product Specification

Genee Vision 91004k

Camera

Total Pixels	13 Megapixels
Camera Rotation	90
