

IPEVO Totem 120

Multimodal Collaboration Camera

IPEVO

IPEVO TOTEM 120 is a conference camera, a demo camera, and a document camera in one, with a design optimised for conferencing at the eye level, online product demonstrations, and sharing of documents and other visual materials.

Features

On-board AI Auto Framing

When the AI Stage is activated, it automatically makes sure that everyone in front of the camera stays in the frame. This makes the communication more natural and immersive for the online participants.

AI-enhanced Voice Technology

Equipped with IntelliGo's AI-enhanced Voice technology, which filters background noise, while being highly effective in maintaining the natural sound of the human voice.

Dual-lens: 120° Ultra-wide Lens and 80° Autofocus Lens

Switch effortlessly between the 120° and the 80° Sony lenses to perfectly match your FOV need. The 120° ultra-wide lens is ideal for huddle room conferencing or presentations. The Autofocus built in the 80° lens provides a detailed experience for document sharing and individual video calls, delivering 4K quality in any kind of environment lighting.

Key Features

IPEVO Totme 120

IPEVO Totem 120

Efficient Video Conferencing with Flexibility

IPEVO TOTEM 120 is designed for huddle rooms and meeting rooms not equipping with conferencing equipment. It delivers unmatched flexibility and collaboration freedom to business conferencing.

Capture Presentations

TOTEM's ultra-wide lens and versatile adaptable body allow capturing whole whiteboard surface including the presenter and displaying the full image for the online participants.

Video Conferencing Anywhere

TOTEM 120 is portable and its AI-enhanced voice technology gives freedom to turn any place into professional conferencing space.

IPEVO EyeStage™ Software Perfect match for TOTEM 120

IPEVO EyeStage™ delivers complete control of how your hybrid conference or online presentation is displayed. Use face tracking for camera control, have the AI follow your movement, or put the spotlight on the meeting participants. EyeStage's AI can help even when sharing printed materials via your camera.

Works with Everything

Plug and play compatible with Zoom, Google Meet, Skype, Microsoft Teams, Webex, GoToMeeting, and more - on Windows, Mac, and Chromebooks.
